

# ACARAT

## A complete management system developed entirely for casinos

Secured and developed in accordance with ISO 27001, ISO 27017 and ISO 27018.

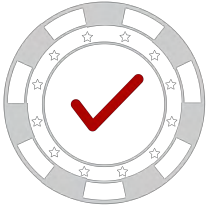

**ACARAT is completely cloud based and is very easy to implement.**

You can easily use ACARAT with your own hardware, no extra investments are necessary! ACARAT continues to evolve with an extensive roadmap planned. New features are added almost every week. In addition, things can be customized according to your wishes per user/branch.

## Are you intersted in a demo and more information?

Call or email Heidi (RR gaming international B.V) : 06-55871322,  
sales@rrgaming.nl, sales@roulettemachines.nl

## **CRUKS inquiries**

Reliable web hosting and data loss protection. Fully in accordance with the policy of, among others, the KSA.

## **Easy data access management**

Transparent storage of collected customer data, detailed reports and analytics of visitor data. See at a glance which customers has opted for exclusion from the casino. Quickly give employees the right permissions to access the information according to different roles.

## **Provides a fully integrated prevention plan for responsible gambling**

Preventing gambling by minors and minimizing gambling-related problems for young people. Timely identification and monitoring of the risks of gambling addiction among customers. Simple data entry, management and follow-up of prevention interviews. Export prevention reports in an instant for the KSA.

## **Make every guest a VIP guest**

Thanks to “guest management module” a complete overview with the history of each customer visit to the casino. Always be aware of the latest developments in the casino. Information provision about customers can be determined per employee. Various options for personalized messages where the high-risk and blacklist customers are automatically excluded, and employees are made aware.

## **Real-time insights**

Visitor numbers/statistics/reports and status of visitors. Detailed reports per shift. Easily schedule employees on work schedules.
